## EDUCATION

**Dr. Akhilesh Das Gupta Institute of Professional Studies – Delhi**

2022-2026

Bachelor of Technology (Information Technology)

CGPA:8.49 (till 7<sup>th</sup> sem)

**Salwan Public School – New Delhi**

2021-2022

PCM with CS

## PROJECTS

### AI-Powered Contract Review System

May 2026

- Fine-tuned Mistral-7B using **LoRA/QLoRA** on legal-domain datasets including **13,000+ annotated clauses from 510 commercial contracts** (CUAD) and **126,000+ retrieval pairs from ACORD**, reducing contract analysis time by over **80%** compared to manual review.
- Built parsing and retrieval pipeline using MiniLM embeddings and FAISS to extract and analyze relevant clauses from **100+ page contracts within 2 minutes**.

### Hybrid AI Chat- Travel Assistant

October 2025

- Built** a hybrid AI knowledge retrieval system integrating **2 DBs**, **Neo4j** (Graph DB) for graph-based reasoning and **Pinecone (Vector DB)** for semantic similarity search, enabling context-aware information retrieval.

### FuzzyTube

October 2024

- Engineered** a pipeline to fetch YouTube transcripts via API, apply **Fuzzy Logic** and **NLP keyword extraction**, and generate **timestamped highlights** of stock mentions.
- Accelerated decision-making for retail traders by reducing manual video-scanning time by approximately **70%** per video.

### Budget Manager

July 2024

- Developed** a budget management application using **Random Forest** to analyze transactions, predict expenses, and generate savings recommendations, **reducing manual financial analysis time by 50%**, with results integrated into an interactive **Streamlit** web app.

## EXPERIENCE

### Artificial Intelligence Intern – Infosys Springboard

August 2025-October 2025

- Collaborated with a **team of 5+ members** to build an AI-powered contract compliance checker using **LangChain, Hugging Face, Streamlit, and APIs (Groq, Google Sheets)** to evaluate **50+** contracts against **2** regulations, GDPR and HIPAA.
- Streamlined data ingestion and regulatory retrieval through **API integration**, reducing manual compliance checks by **60%**, and developed a Streamlit dashboard for visualizing results and reviewing contract data.

### AI-ML Intern – QSPEAR Consultancy Services

June 2025 – July 2025

- Developed** a Smart Health Risk Predictor using **3+ algorithms Logistic Regression, XGBoost, Random Forest, and KNN** to predict stroke risk and provide health recommendations achieving **over 85% accuracy**.
- Groups users in **7 clusters** using **K-Means Clustering** and **detects anomaly using KNN** and integrated results into **Streamlit** webapp.

## SKILLS

**Languages:** Python, C, C++, HTML, CSS

**Databases:** MySQL (Relational), Pinecone (Vector DB), Neo4j (graph-based), FAISS

**AI/ML and Frameworks:** LangChain, RAG, Hugging Face, scikit-learn, Tensorflow, NLTK, MCP

**Data Analytics:** Pandas, NumPy, Matplotlib, MS-Excel

**Web and Dev Tools:** Flask, Streamlit, VS Code, Git, GitHub, Jupyter Notebook, Docker, Ngrok

## CERTIFICATIONS and ACHIEVEMENTS

**Introduction to Model Context Protocol – Anthropic**

May 2026

**Published Research Paper on AI and Human Collaboration on Language Assessment**

Nov 2025

International Journal on Science and Technology (IJSAT), E-ISSN 2229-7677, 2025. DOI: 0.71097/IJSAT.v16.i4.9449

**Training Program on Artificial Intelligence and Machine Learning – IBM**

August 2024
